

CODE:

```
1 package setsize;
2
3 import org.openqa.selenium.Dimension;
4
5
6
7
8 public class SizeWindow {
9     @Test
10     public void launchBrowser() {
11         System.setProperty("webdriver.gecko.driver", "/home/tbl9/Downloads/Compressed/BrowserDrivers/geckodriver");
12         WebDriver driver = new FirefoxDriver();
13         driver.navigate().to("https://www.softwaretestingmaterial.com");
14         System.out.println(driver.manage().window().getSize());
15         //Create object of Dimensions class
16         Dimension d = new Dimension(880,920);
17         //Resize the current window to the given dimension
18         driver.manage().window().setSize(d);
19         System.out.println(driver.manage().window().getSize());
20     }
21 }
22
```

Results of running class SizeWindow

```
<terminated> SizeWindow [TestNG] /usr/lib/eclipse/plugins/org.eclipse.justi.openjdk.hotspot.jre.full.linux.x86_64_16.0.2.v20210721-1149/jre/bin/java (7 Dec 2021, 09:25:41 - 09:26:09)
```
